Aluminum Composite Panels

ACC-05/2019

Welcome to the ALDOM World !

Engaging in Aluminum and Construction sectors for more than 20 years, Aldom Group has cooperated with many worldwide known brands in construction chemicals, aluminum profiles and aluminum composite panel products, and gained a reputable place in the sector.

Today, Aldom Group is one of the biggest manufacturers in aluminum sector with its aluminum profile and composite panel productions, operating in its facilities with a 13,000m² of indoor and 7,000 m² of outdoor area, located in Çerkezköy-Tekirdağ/TURKEY.

With its Aresbond U.S.A branded composite panels, Aldom takes quality to another level in all kinds of fire rated type cladding materials. At Aresbond U.S.A; highest quality raw materials, flexibility, easy-processability, all types of highest fire rating cores, wide range of colors and special production capabilities are all standard !

The great desire to support creativity and continuous efforts to be different leads us to improve and innovate at all times. This keeps us being one of the leading manufacturers in our sector for many years. The highest quality of products and services, and our flexibility in supporting architects' ideas allows us to cooperate with the most famous architects and to take place at best prestigious projects worldwide.

We are committed to keep on contributing to efforts to make our World a more beautiful place.

Aresbond Metallic Colors

ARM-2104 GRAY METALLIC SILVER

ARM-2101 BRIGHT SILVER

ARM-2103 SMOKE SILVER

ARM-2201 CHAMPAGNE SILVER

ARM-2204 BRIGHT CHAMPAGNE SILVER

ARM-2102 RAW GREY

Aresbond

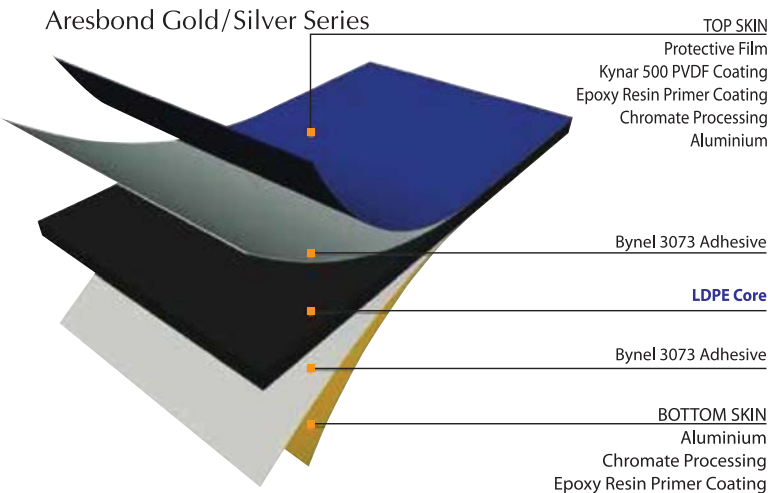

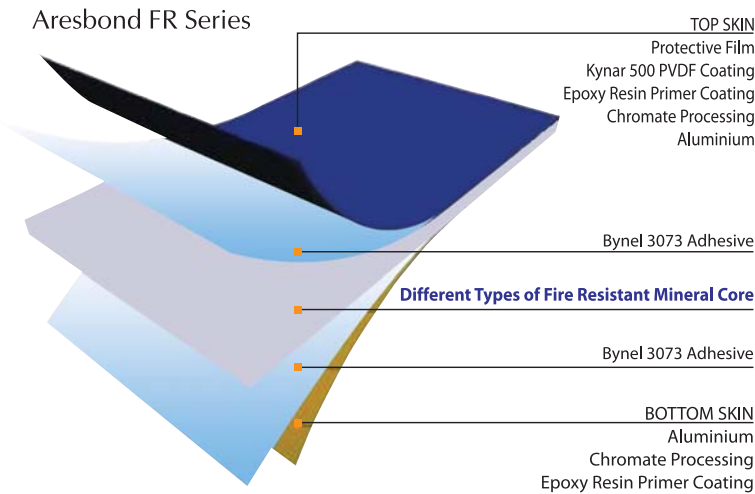

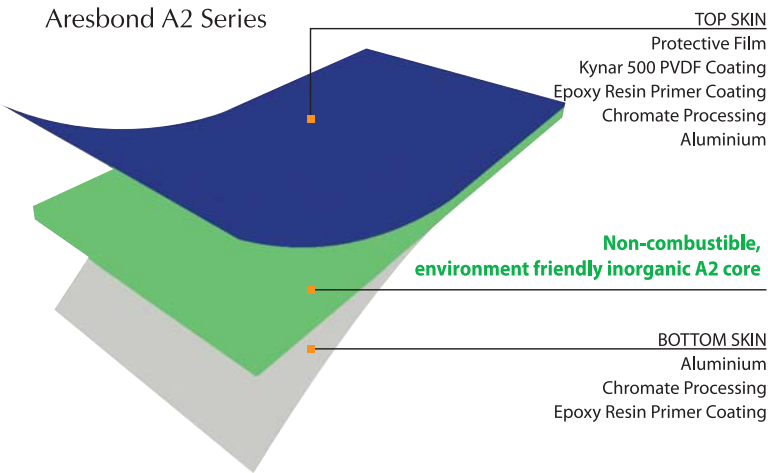

ACP standard panel dimensions

Width : 1250 mm, 1500 mm (max. 1800 mm)
A2 - max. 1600 mm
B, B1, B2 - max. 1800 mm
 Length : max. 6000 mm
 Thickness: 4 mm (min. 2 mm - max. 6 mm)

Aresbond Product Advantages

- LIGHTNESS;** in addition to its lightness, the product is very firm and smooth, which provides an important economic alternative for exterior and interior applications.
- WATERPROOFED,** high acoustic, thermal and fire resistance capabilities.
- WIDE RANGE OF COLORS;** Solid, Metallic, Wood, Stone, Real Anodized, Special Effect and Chameleon Colors.
- EASY PROCESSING;** Its flexibility provides a multi-aspect panel solution for sophisticated design applications.

Aresbond U.S.A® uses the new mechanical and chemical bonding technology, and with its long-life PVDF Kynar 500 fluorocarbon coating, guarantees high resistance against all weather conditions while providing perfect performance and long-life integrity.

■ ■ ■ Quality Statement

“ At Aresbond®, we ensure our product is made from the highest quality raw materials and superior technology giving Aresbond U.S.A® ACP panel's durability, reliability and strength. Aresbond U.S.A® has been fixed in the most demanding architectural structures, with the ability to withstand any and all weather conditions. With constant product R&D, we are able to continuously innovate and improve our product range and processes that have resulted in producing only the very best. We believe in giving an end product that is superior in quality and best in its price range. ”
